Objective

By the end of this lesson, you will be able to understand the basics of game design in Roblox and apply your knowledge to create your own game.

Materials and Prep

- A computer or laptop
- An internet connection
- A Roblox account
- A text editor or Roblox Studio installed

Prior knowledge of basic computer skills and familiarity with Roblox is recommended.

Activities

- Create a game concept: Encourage the student to brainstorm ideas for their own Roblox game. They can think about the theme, objectives, characters, and gameplay mechanics.
- Research existing games: Ask the student to explore popular Roblox games and analyze their design elements. They can take notes on what makes these games engaging and successful.
