

Objective

By the end of this lesson, you will be able to learn about monkeys and their characteristics.

Materials and Prep

- Books or pictures of monkeys
- Coloring materials
- Whiteboard or paper

Activities

- **Monkey Coloring:** Show the student pictures of different monkeys and let them choose one to color. Encourage them to use different colors and be creative.
- **Monkey Movement:** Ask the student to imitate different monkey movements such as swinging from trees, hopping, or walking on all fours.
- **Monkey Sounds:** Play recordings of monkey sounds and ask the student to mimic them. Discuss the different sounds monkeys make and what they might mean.
- **Monkey Facts:** Read a book or show pictures of monkeys while discussing interesting facts about them, such as where they live, what they eat, and how they communicate.

Talking Points

- "Monkeys are animals that live in the jungle or forest."
- "They have long arms and legs, which help them swing from tree to tree."
- "Monkeys eat fruits, leaves, and sometimes insects."
- "They make different sounds like hoots, screams, and chatters to talk to each other."
- "Monkeys have different colors and patterns on their fur, just like our clothes can be different colors."
- "Some monkeys have long tails, while others have short tails or no tails at all."
- "Monkeys are very good climbers and can jump from branch to branch."
- "They are playful animals and like to swing and play with each other."
