Notes & Customization Tips:

- **Personal Interest Time:** Encourage exploration of hobbies, new skills, or passions. This fosters independence and enthusiasm for learning.
- **Electives:** Rotate subjects depending on student interests or special projects.
- **Enrichment Activities:** Can include STEM kits, nature lessons, or educational apps to keep lessons engaging.
- **Breaks:** Short breaks keep mind fresh; consider light physical movement/stretching.
- **Flexibility:** Times and subjects can be shifted or combined based on attention span and family schedule.
- **Weekend Option:** Use weekends for field trips, library visits, or social learning opportunities.

This schedule ensures a strong academic foundation with balanced, fun enrichment and personalized learning. Would you like me to generate a more detailed *daily* schedule or include specific curriculum recommendations?
