

Instructions

Fractions are a way to show part of a whole. For example, if you have a pizza cut into 8 slices and you eat 2, you can show how much you ate with a fraction: $\frac{2}{8}$. On this worksheet, you'll learn about different types of fractions and how to work with them. Have fun!

Section 1: Naming Fractions

Look at the picture below and write the name of each fraction:

1. Color the shading in the pizza to show $\frac{1}{4}$ of the pizza.

2. Color the shading in the pizza to show $\frac{1}{2}$ of the pizza.

3. Color the shading in the pizza to show $\frac{3}{8}$ of the pizza.

Section 2: Drawing Fractions

Draw each fraction and shade the correct part:

4. Draw $\frac{1}{3}$ of a circle and shade it.

5. Draw $\frac{2}{5}$ of a rectangle and shade it.

Section 3: Comparing Fractions

Match the fractions to the correct picture:

6. Match the fraction to the picture: $\frac{1}{2}$ | $\frac{1}{4}$ | $\frac{3}{4}$

7. Match the fraction to the picture: $\frac{1}{3}$ | $\frac{2}{3}$ | $\frac{1}{6}$

Section 4: Word Search

Find and circle the following fraction words in the grid:

HALF, QUARTER, EIGHTH, THIRD

Section 5: Creating Fractions

Create your own fractions and draw them:

8. Draw 4 apples and shade 1. Write the fraction:

9. Draw 6 cookies and shade 2. Write the fraction:

Section 6: Assessment

Answer the following questions:

10. What is the name of the fraction $\frac{3}{4}$?

11. Draw a picture to show the fraction $\frac{2}{5}$:

12. Create your own fraction using any object and write it here:
