

Instructions

Read each question carefully and write your answers in the spaces provided. Use a pencil or pen to complete this worksheet.

Mammals vs. Reptiles

Mammals and reptiles are two different groups of animals. Let's explore what makes them unique!

Part 1: Characteristics

Fill in the blanks with the correct words to complete the sentences.

1. Mammals are warm-blooded, while reptiles are _____ (warm-blooded / cold-blooded). Answer: _____
2. Mammals have _____ (scales / fur or hair) covering their bodies, whereas reptiles have _____ (fins / scales). Answer: _____
3. Most mammals give birth to _____ (live young / eggs), while most reptiles lay _____ (live young / eggs). Answer: _____

Part 2: Examples

Write down one example of a mammal and one example of a reptile in the boxes below.

- Example of a Mammal: _____ - Example of a Reptile: _____

Part 3: True or False

Write "True" or "False" next to each statement.

1. All mammals can fly. _____ 2. All reptiles live in water. _____ 3. Mammals breathe air using lungs. _____
4. Reptiles can be found in colder climates. _____

Part 4: Drawing Activity

Draw a picture of your favorite mammal and your favorite reptile in the boxes below.

Mammal: [Draw here] _____ Reptile: [Draw here] _____

Part 5: Reflection

Write a short paragraph about which group of animals you like more and why. (4-5 sentences.)
